Thinking in 360 Degrees. Making it Happen.

You want a healthy work-life balance. You want meaningful work and to be trained by experts. You want to advance at a rate that matches your ambition. **Good news. We want to offer it to you.**

Welcome to Trapeze Group

Trapeze Group delivers solutions that consider the full 360 degrees of passenger transport. We provide some of the most advanced software, intelligent transportation systems (ITS) and mobile technologies in the industry.

At Trapeze, we look to the future of technology. Fresh ideas and new ways of doing things are what keep us at the forefront of our competitive industry. That's why we believe in recruiting and retaining quality people by offering valuable knowledge and prospects of a successful career.

Let's be practical.

The best training comes from real-life exposure to the work. We provide you with many opportunities to interact with our clients and stakeholders. It won't be long before you get acquainted and become immersed in various interesting projects.

Pedal, meet metal.

We work in a fast-paced, 'no-day-is-the-same' environment and welcome your fresh ideas. This is the place to be if you're looking to demonstrate leadership, gain autonomy and take on responsibility.

Horizon, broadened.

We're growing and expanding our international offering, so we can always offer you the mobility to explore your desired career path. With 16 locations worldwide, we cherish our diversity, transparency and openness. So come grow along with us.

With growth comes opportunity. Here are your career path opportunities with Trapeze:

- Product development
- Finance
- Marketing
- Product management
- Implementation & training
- Technical support
- Sales
- Documentation
- Customer care
- Business analyst
- And more

"As soon as I joined Trapeze I was impressed with the helpful and talented people that make for a highly supportive environment. The job itself is terrific because of the interaction I get to have with clients, and the responsibility I was able to take on right out of university. I feel valued and see a successful future for myself here."

Tajana Jakovic, Account Manager
iBBA, Schulich School of Business 2008

"Upon joining the Trapeze team fresh out of university, I was immediately thrown into the mix. From the start, my job has consisted of working on acquisitions from cradle to grave, interfacing with top executives at international companies and playing a key role in the financial direction of the overall business. It is not often that a person as young as I am can experience such diverse and critical tasks in a compacted period of time. I feel like my contribution truly matters."

Blayne Gross, Business Analyst
BBA, Schulich School of Business 2008

"Trapeze has given me the opportunity to expand my technological skill set, while at the same time providing me with valuable professional experience. The everyday responsibilities have been challenging, but everyone was willing to help from day 1. I feel that the work environment here at Trapeze has been very beneficial to my learning experience."

Richard Allen, Technical Product Specialist
GIS Studies, University of Toronto 2008

"I entered Trapeze after finishing university and right off the bat, there was an emphasis on mentoring me into my role and its frequent challenges. As a growing organization in an expanding market, Trapeze offers a great work environment with many opportunities for career development and individual growth. I have also enjoyed working with numerous transit agencies across North America as they strive to improve public services with Trapeze's solutions."

Anson Clark, Project Coordinator
Bachelor of Management and Organizational Studies (BMOS),
University of Western Ontario 2006

"Working at Trapeze is rewarding thanks to the incredible overall learning experiences! The job sends me all over North America to take on many unique transit projects."

Kevin Jiang, Technical Product Specialist
Electrical Engineering, University of Toronto 2007
